INTERNATIONAL SCHOOL ASSOCIATION

BOARD OF TRUSTEES NOMINATION FORM

CANDIDATE'S STATEMENT

Please include your responses to the following questions. *Why do you want to be a Board member? What skills and attitude would you bring to the Board? What is your vision of the Board of Trustees' role in the governance of ISB? How do you see ISB 10 years from now?*

Please include any other relevant information.

I have served on the ISB Board of Trustees for the past two years and would love the opportunity to continue my service to the school and ISA community. My experience has been very rewarding as I have learned a great deal about international education and leadership. I care deeply about ISB and am confident that I will be a continued asset to the board. As an incumbent I will contribute to board continuity and stability which are critical next year with so many changes in ISB administration.

I promise to hit the ground running in the 2012-2013 academic year, maintaining my momentum of service, honesty, and energy. I have great respect for the institution of the board and the trustees themselves and want to continue working on the team that establishes, protects, and defends ISB's mission and vision and shapes the future direction of the school. During my tenure, I have proudly served as Secretary and hold my responsibilities to a very high standard. I am passionate about relaying the minutes of the board meetings as accurately and consisely as possible.

In 2022, I hope to see ISB students leading lives reflected in the current mission and vision. I would like to see an effective tool in place to measure metacognitive thinking and that the whole child is being supported in a caring, nurturing environment. I feel that great progress was made this year with the addition of the fourth health-related bullet in the mission statement (that ISB students will lead healthy, active, and balanced lives.) I hope this culture continues to grow with academic potential improving as a result of an increasing emphasis on wellness.

I hold a masters degree is in public health nutrition with an emphasis on maternal and child health and I have made a career of working to improve the health of individuals as they pass through life stages. My background adds to the diversity of the board, especially maintaining the concept of the health and well being of the whole child. I hope to continue my work to help make ISB a better school and would be honored to be re-elected to serve another term.
