Total					28.0

Top Scholars is proud to offer our SAT Overview course on ISB campus exclusively for ISB students. All classes and tests will be held at ISB, making your prep easy and convenient.

In 5 classes, our course gives students the basics of SAT preparation. This introductory course will cover the most important strategies in Critical Reading, Math, and Writing, and reinforce student understanding with homework and practice tests.

Our course ends with a final review session, consisting of additional practice and 1-on-1 meetings with a Top Scholars instructor, giving the students the individual attention needed to customize the strategies around personal strengths and aligned with individual goals.

Throughout our course, students also enroll in our online vocabulary training system, helping students to learn the most important words for the SAT on their own schedule.
